

A LIFE WORTH LIVING

Chosen to live and serve are the midwives
Interceding mother and their relatives: For a life worth living
Addressing sexual and reproductive health for a life worth living
Ending harmful cultural practices for a life worth living
And delivering babies for mothers for a life worth living
For Midwives, Mothers and Families are partners for life!

Heed to our cry; Husbands and relatives
The cry of mothers and midwives
Empower and support a girl child: For a life worth living
For a child can never be a mother to a child
Educate a woman and save the Nation
For Mothers, Midwives and families are partners for life!

Educate a girl child for a life worth living
Support expectant mothers for a life worth living
Plan for your family for a life worth living
Save for the future for a life worth living
Love all Midwives for a life worth living
And love your country too.

“EDUCATION FOR HEALTH DEVELOPMENT”

“FOR GOD AND MY COUNTRY”

Wembabazi Justine

Student midwife – year one

Hoima School of Nursing and Midwifery
